STATEMENT OF CITY COMPTROLLER SCOTT M. STRINGER ON ELIZABETH STREET GARDEN

(New York, NY) – I stand with the Friends of Elizabeth Street Garden and Community Board 2 in their fight to preserve this vital green space. Elizabeth Street Garden has been part of the fabric of SoHo and Little Italy for over 25 years – it is a center for the community that’s more than just a quality garden, but also offers a variety of educational, health, arts, and cultural opportunities for the public. In a neighborhood sorely lacking in green space, it is critical that the City keep this garden open for the community to enjoy for years to come.
